

***Hail*** unto our Great Majesty King Ulfgar and Gracious Majesty Queen Juahara, our Glorious Royal Highness Prince Erik and Radiant Royal Highness Princess Brynhildr, our Effervescent Excellency Baroness Kloe and Wise Excellency Baron Arion, our Dread Seneschal Marquessa Laurellen, our Glowing Poling Deputy Maestra Ana,

We, His Lordship Conrad Cedricson and Her Ladyship Furia Domitia, do bid you fond greetings and well wishes at this time of change, and would request the honor of being considered to serve both The Crown and Populace of Dragon's Laire as Their Majesties representative as the Baron and Baroness of Dragon's Laire.

We bring to this a combined experience of 45 years (33 and 12 respectively) of service to the Dream having stewarded events, held Baronial offices, served as both Champion and retinue, and given our love, labor, and continued determination to our community. We are aware of the work, time, and financial commitment that is required for bearing the coronets. We fully understand the importance of working alongside and developing further relationships with the officers, champions, sergeants, and populace of the great Barony of Dragon's Laire and are committed to this effort wholeheartedly. Even before considering approaching this esteemed council, we have endeavored tirelessly to share our love of this Dream, the efforts required to help it flourish, and to create a space in which all are welcome. It is our intent, even if not selected for this honor, to continue our efforts in growing our beloved community, sharing our passion, and giving back to this Barony that has been our home and our family.

Raised within the borders of the Mighty Barony of Dragon's Laire, Conrad started service as wee lad under the care and tutelage of his venerated parents Dame Brigid Ross and Sir Cedric Wlfraven. Stolen from a neighboring shire that has since been lost to time, Furia has drunk deeply of the drought of service and is protege to the Knowledge Tree of An Tir, Dame Brigid.

Known in the halls of our great Barony, the unyielding teamwork, differing yet complimentary natures, and joint effort of both Conrad and Furia have stood through fire and plague and together we have moved mountains. We, if given the opportunity and honor, look forward to continuing to move mountains, carve paths, and build bridges on behalf of our people and The Crown of An Tir.

Our Deepest Gratitude for your time and consideration,

*Conrad Cedricson*
